

Preparing for Test Data Access

- **Vertical Slice available soon**
 - **Splitter → Transition → ADF → TAB → L3**
 - **(also GAB → TFW)**
- **Questions**
 - 1) **What software do we need to do this ?**
 - 2) **What do we do with the data (1st studies) ?**
- **Goal**
 - 1) **Data easily accessible to non-L1Cal people**

Concrete Examples

**1) Compare L1Cal2b TT data with
L1Cal2a TTs & Precision Readout**

2) Study Oversampled ADF Data

**What Software are we Missing if we wanted
to do these Studies TODAY ?**

Software Questions

- **L1Cal Online Software**
 - ADF Setup/Control
 - TAB Setup/Control
- **DØ Online Software**
 - VRB/SBC Setup/Control
 - Trigger Config for Data to Tape (or Disk)
- **Data Access**
 - Unpacker
 - Non-expert HowTo/Examples

Studies to Do

- **First Looks**
 - 1) TTs: L1Cal2b vs L1Cal2a vs Precision
 - 2) Oversampled ADF Data
 - 3) anything else...
- **Questions**
 - 1) Which TTs ?
 - 2) How much data ?
- **Homework (for everyone!)**
 - answer ALL the questions in this talk
