

Virtual Triangle Note

Marshall Rogers

July 26, 2010

$$\theta_v = \arctan\left(\frac{W_t}{\sqrt{\eta^2 + W_t^2}}\right)$$

$$\theta_n = \left| \frac{\theta_v - \theta_{v_{min}}}{\theta_{v_{max}} - \theta_{v_{min}}} \right|$$

$$0 \leq \theta_n \leq 1$$
