Computer Systems at Nevis: Grand Overview

Computer Systems at Nevis: Linux Cluster

<http://www.nevis.columbia.edu/linux/>

<http://www.nevis.columbia.edu/linux/cluster-names.html>

Computer Systems at Nevis: Printers

qms1: Black and white, high-speed, duplex
Location: near building entrance

qmsc: Color, transparencies and paper
Location: near building entrance

qms3: Black and white
Location: far end of west hall

qms2: Black and white, high-speed
Location: electronics building

Typical printer commands:

To print black and white on plain paper:

```
qpr -Pqms1 document.ps
```

To print a color transparency:

```
qpr -Pqmsc document.ps
```

To print color on plain paper:

```
qpr -Pqmsc -I2 document.ps
```

Always use qpr! Never use lpr!
